

DUPER FAMILY FARM

CORTEVA
agriscience

IT'S A BEAUTIFUL AND BOUNTIFUL DAY ON THE GOOD FLAT LANDS OF DUPER FAMILY FARMS.

SWEET HARVEST!

CORN CROPS LOOK STRONG THIS YEAR, NOT A ROOTWORM IN SIGHT.

DIRT GLORIOUS DIRT! USING THE FIELD IMAGERY, SOIL NITROGEN LEVELS ARE LOOKING ROCK SOLID.

NICE WORK, BROTHER. IT'S GROWING TIME! FIELD SAMPLES ARE LOOKING ON TARGET FOR A HIGH YIELD.

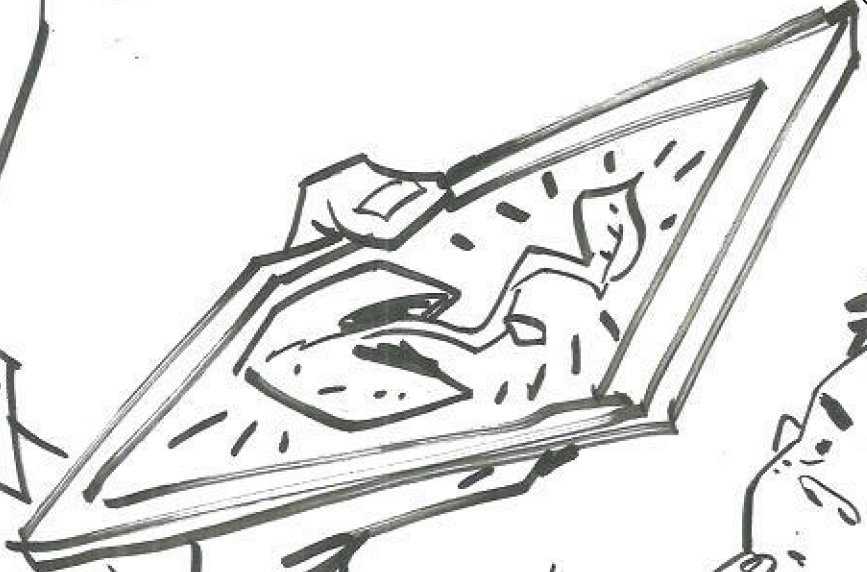

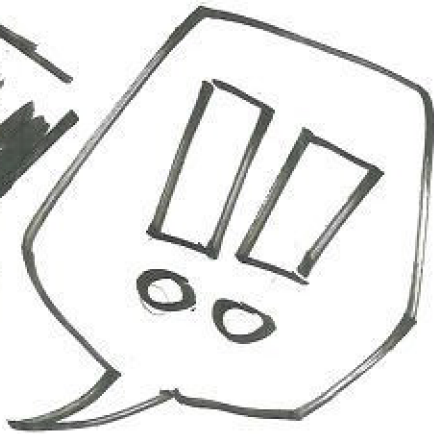

YOINKY!

HALT THE TRACTORS,
GROW GANG! I SPOT A
WICKED ROT...GRANULAR
SATELLITE IMAGES ARE
RENDERING A DISTRESS
READING ON ACRE
42.

...FARM GIRL,
SEND THE DRONES TO
ANALYZE IMMEDIATELY. WE
MUST STOP THE HAVOC
BEFORE IT OVERTAKES
THE HARVEST.

STICKS! I'LL
NEED TO RETHINK MY
BIRTHDAY WISH.

DRONES
ON THE DOUBLE!
LET'S SCOUT THE
STALKS AND STOP
THIS RUCKUS.

PILOTING THE FARM
DRONES, GROW GIRL'S
HOPE SINKS AS SHE
CATCHES A GLIMPSE OF
THE VILEST, VILLIAN PEST
SHE'S EVER SEEN...

OH MY
MAIZE...

NOB!
NOB! NOM
NOM! CRUSH
EVERY LAST
COB AND
SPOIL THE
SOIL!

HA-HA-HA!!!

HA-HA!!

HA-HA!

TEE-HEEE!

GIGGLE!

BUT THE DUPER FAMILY ALWAYS HAS REASON TO HOLD ON TO HOPE. WITH PRECISION CROP PROTECTION, SMARTER SEEDS AND DIGITAL TECH-- THEY JUST MIGHT BE ABLE TO SAVE THE HARVEST.

**NOOOO!!
THEY KNOW MY
WEAKNESS!**

ZAZ-OINK!!!

KISS MY
STURDY BOOTS,
CORN BORER.

WEATHER
DOESN'T LOOK
PEACHY, POPS.
WE'VE GOT A HAIL
STORM HAULING
OUR WAY!

TODAY AND
AGAIN TOMORROW,
WE'LL ALWAYS
KEEP GROWING
TOGETHER!

TO BE
CONTINUED...
